

TOTAL EYECARE

Hope you are all safe and keeping entertained during our social distancing.

At Total Eyecare we are here if you have any eye urgencies. Remember we can care for you better and safer then going to the hospital or emergency room, We have office hours from 10 am-3 pm Monday-Friday at both the Lake Hopatcong Office and the Vernon office. But Dr. Ripps is available 24/7 by emergency number, 973-570-2298.

If you need to order contacts to get you through until we can get you in for your routine eye exam call the office during our new hours. Those contacts will be sent direct to your home without shipping charges.

If your glasses have broken and you can't function without them, we have a staff member present to fix or replace to get you through.

Please call first if you need us as we don't want to have more then 1 person in the office at a time.

Stay safe and upbeat and we will all get through this.

Dr. Bradford Ripps and Staff
